Over the past 10 years, £1 billion has been cut from Nottingham City Council by the central Government .

The cuts threaten the fabric of our community. The well-being of our most vulnerable residents. And our culture as a whole.

This austerity leaves Nottingham closing: Care homes, youth centres, libraries, museums., home care service, welfare rights service and many other services are at risk of closure as well as 550 council jobs.

Many councils are on track to follow Nottingham city within the next 2 years. We call on Nottingham Labour Councillors to publicly resist and fight these Tory cuts!
