**Over the past 10 years, £1 billion has been cut from Nottingham City Council by the central Government .**

**The cuts threaten the fabric of our community. The well-being of our most vulnerable residents. And our culture as a whole.**

**This austerity leaves Nottingham closing: Care homes, youth centres, libraries, museums., home care service, welfare rights service and many other services are at risk of closure as well as 550 council jobs.**

**Many councils are on track to follow Nottingham city within the next 2 years. We call on Nottingham Labour Councillors to publicly resist and fight these Tory cuts!**
